[TDD No. 0001-17-065 Wilcox Oil Table of Content Errors - QASP.pdf](#)

Today, we received the Removal Action Report from Weston on your Wilcox Oil Site. I have the following concerns that you might want to get Weston to fix:

Appendix C: Waste Manifests are very faint and don't make a very good record. Is there any way we can get those darker? The server won't allow me to send the file.

Main Report Table of Contents is incomplete. See attached.

QASP Table of Contents lists Appendices and Figures that are not attached to the QASP. See attached.

If you'd like these corrected, please instruct Weston to do so. And then advise me to hold the existing CD until I get a corrected set.

If you feel corrections are not necessary, advise me of that so I can proceed with in-filing the report that I have.

Thanks!
